Regional Head of US Mining Farms

Bitmain Inc ★★☆☆☆ 6 reviews - San Jose, CA 95110 (Downtown area)

Apply On Company Site

organization. In this position, you will oversee all of the current mining farm sites/operations and mining farm sites are currently under development – to ensure that the channels of communication are open at all levels. An individual who is able to lead the US team and create an on-going collaboration between the US and Global teams within the company. A keen attention to detail, great attitude and strong analytical skills are a must.

Duties and Responsibilities

- As the North America Operations Director, manage all related projects and end-to-end process including but not limited to: project P&L, budgeting, cost control, progress claims, variations, risk mitigation, supplier negotiation and tender management, etc.
- Lead the North American team, provide project support, coordinate and communicate with internal cross-functional team, major stakeholders, external third-party partners, etc. to ensure project progress and timeliness, steer successful completion and meet the business development goals;
- Responsible for the further expansion of North American business, including ground research, identifying new business development opportunities, providing analysis, suggestions and solutions to the existing business.
- Hire and build up a professional and capable team and set objectives, goals and KPIs consistent with business objectives.
- Effectively manage allocated budgets and deliver within agreed timelines and costs
- Practice Bitmain's cultural values and take responsibility for the team, the business as a leader.
- This role will oversee the current Operations business unit and on-going Construction business unit – which would combine all of the US business units for Bitmain mining farms.
- This role will directly report to senior management in HQ [Beijing, China] and will be expected to provide daily updates to senior management on performance of projects and operations.
